Queensland Government
NORTHERN TERRITORY GOVERNMENT

Area of operation

The Tension Facing Northern Development

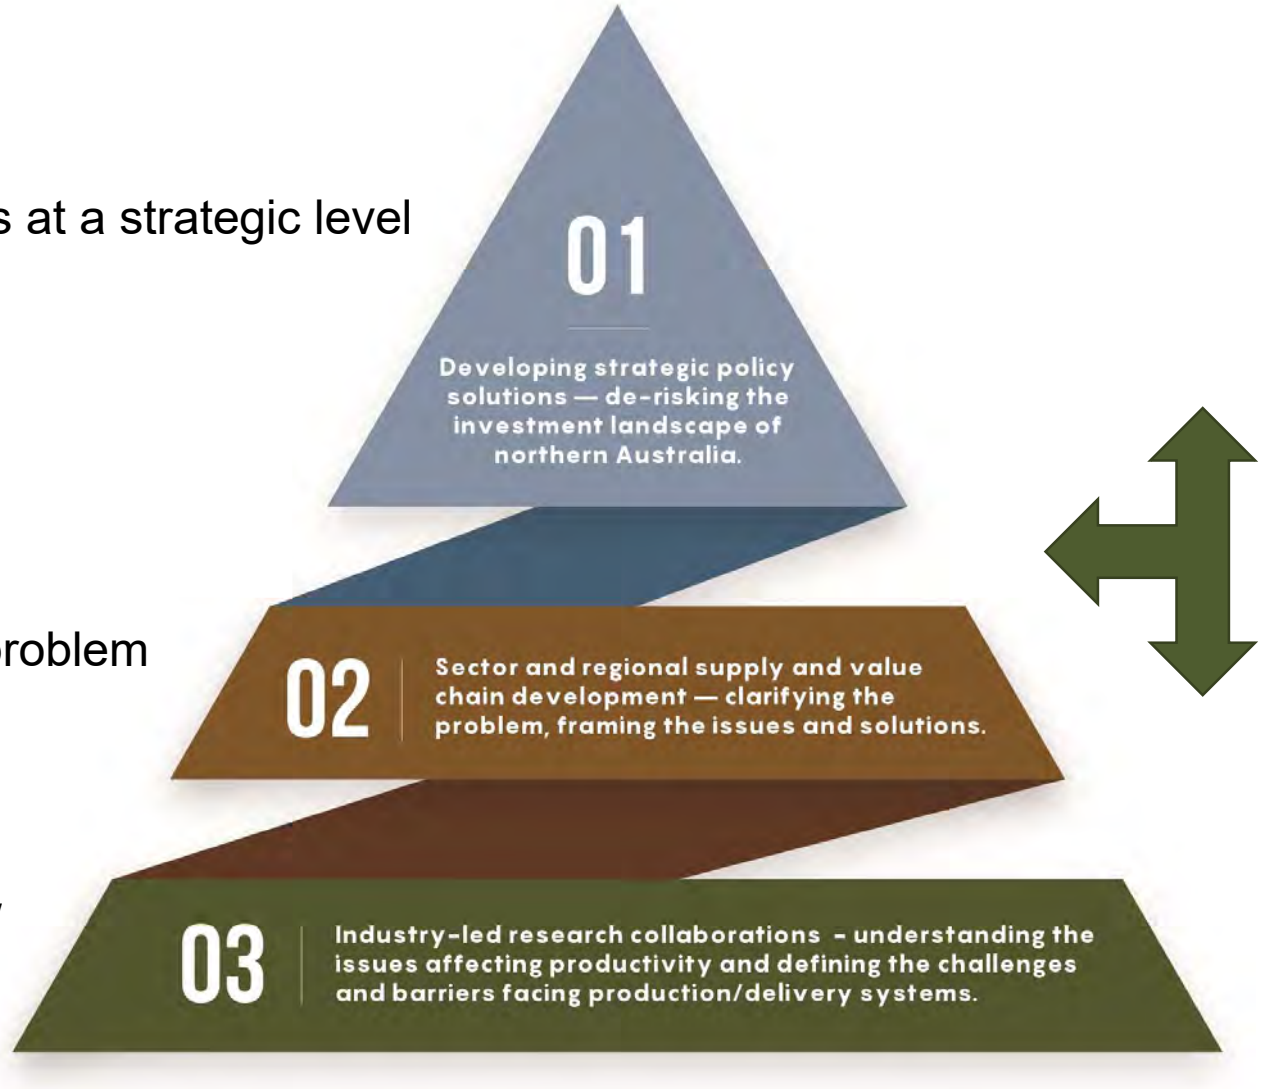

Investment prioritisation

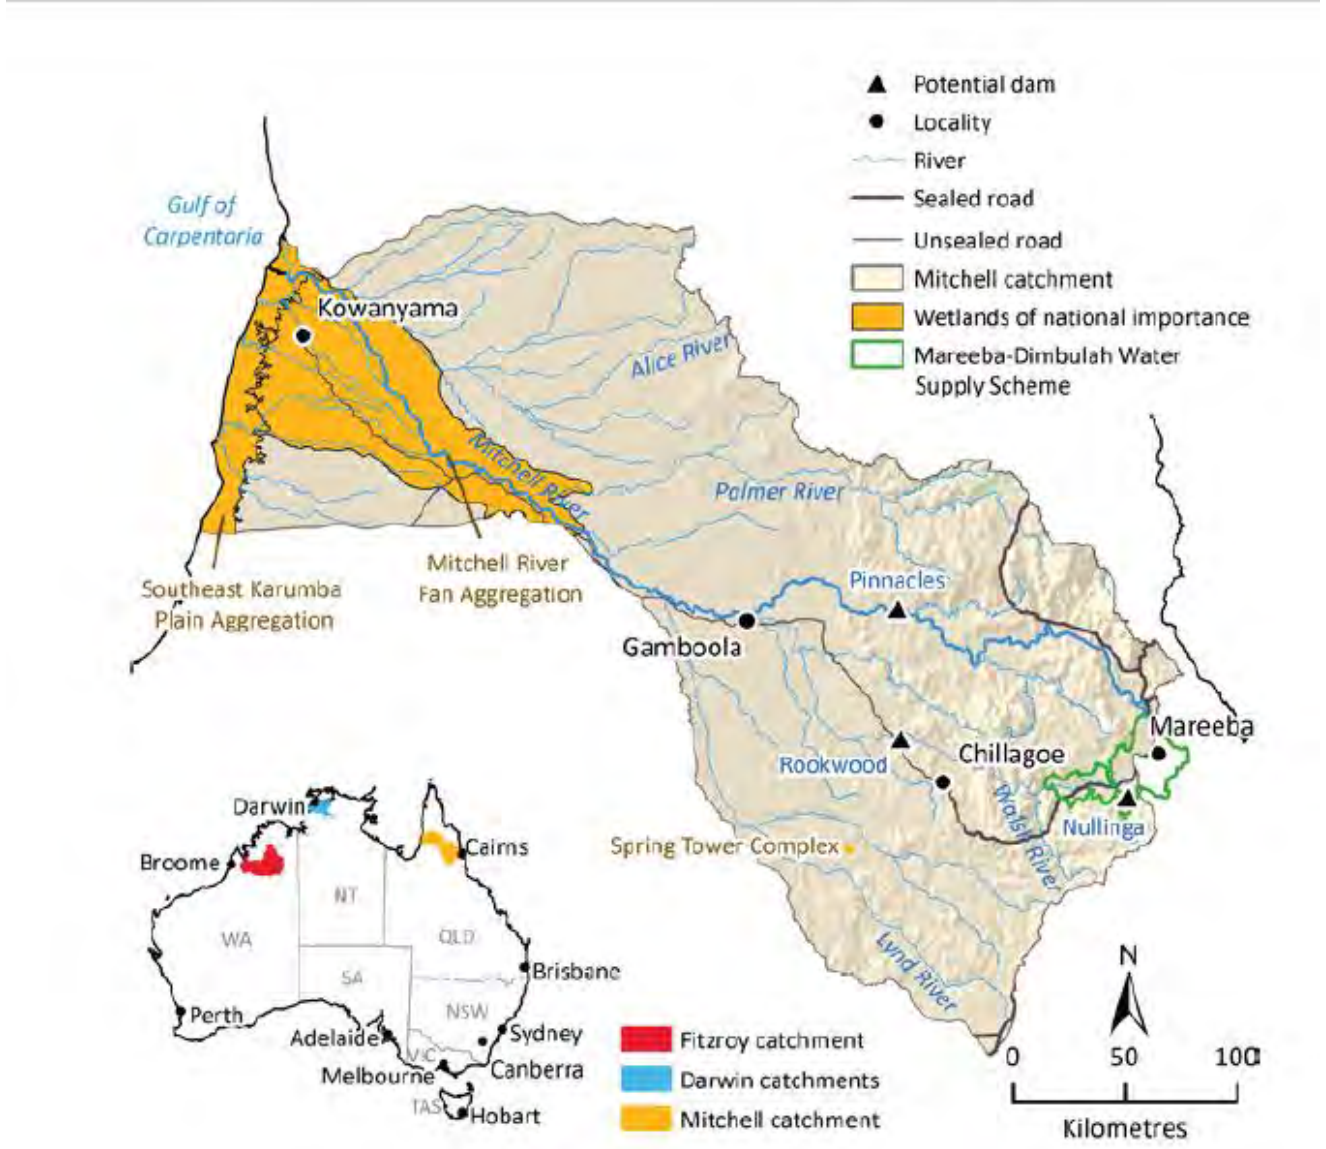

Developing solutions at a strategic level

Clarifying the problem

Trialling and developing new solutions at a practical level

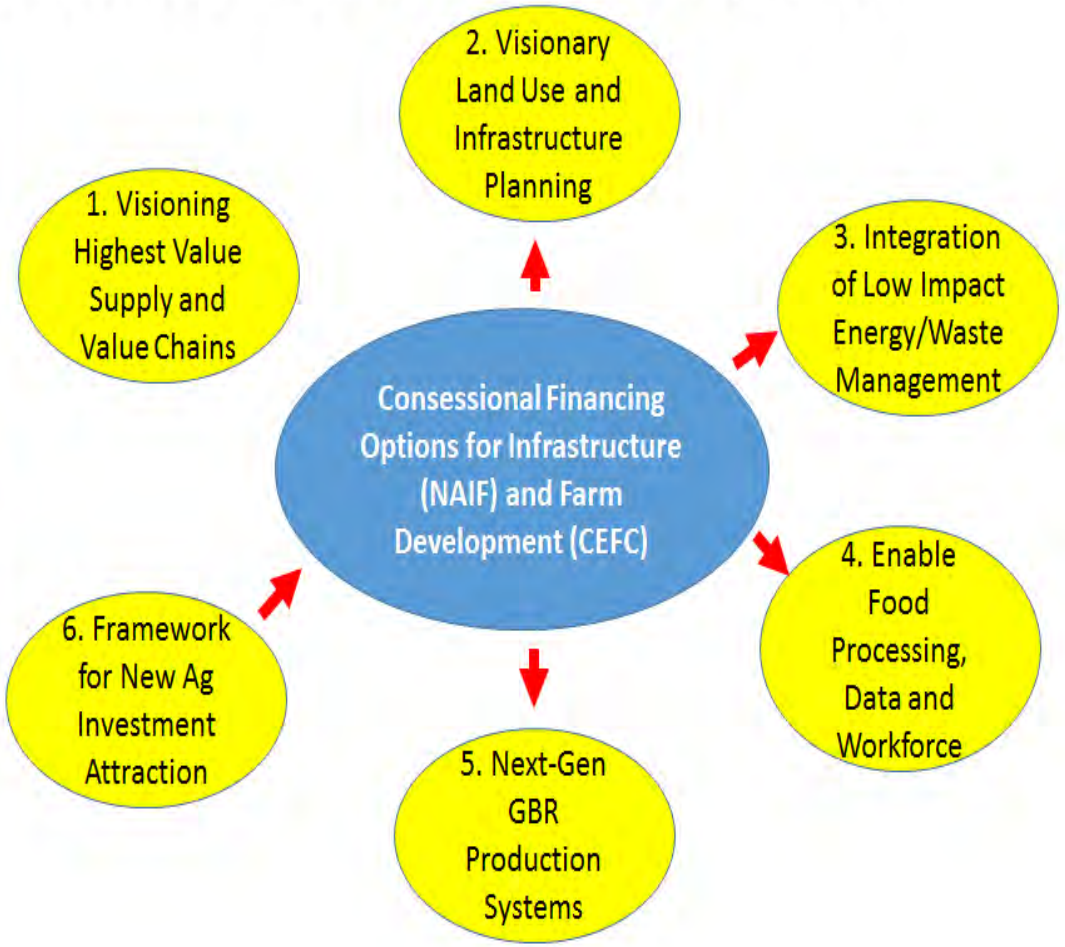

De-risking pre-development in greenfield landscapes

De-risking post-development in developed landscapes

Key emerging themes for White Paper review

- The next generation of water infrastructure feasibility and construction.
- Progressing towards a cohesive landscape derisking program.
- Towards improved supply chain development and financing.
- Progression of cohesive sector development strategies.
- Sector wide and place-based approaches to workforce development.
- Strategic Investment Frameworks for energy and communications.
- Stronger place-based frameworks for major infrastructure planning.
- Implementation of the Indigenous Reference Group’s Accord.
- Even stronger governance for the northern Australia agenda.
